

Remove poco x3 ads

Continue

Welcome to my 11 step guide on how to remove all the system adverts on a Poco X3 NFC, any Poco, Xiaomi or Redmi phone. This is a simple guide which requires zero knowledge. By removing these ads, you will increase your battery life and protect your privacy further. Video Review Useful Links Poco X3 NFC latest deal on Amazon UK You know you're enjoying the best of features in your value-for-money Xiaomi phone. However, you would also know that this smartphone experience and the custom MIUI software come loaded with bloatware and unwanted ads. So if you've been wondering how to get rid of these annoying ads that pop up everywhere, this tutorial is for you. It takes some simple steps and adjustments to a few settings on MIUI 12 to enjoy an ad-free experience on your Xiaomi phone. MSA—MIUI System Ads—is a service that delivers ads on MIUI's default apps. So the first step is to disable MSA ads by revoking authorization for them. Since MSA is a System app you won't find it on the Home Screen. So what you need to do is: Go to Settings > Passwords & security. Tap on Authorization & revocation. Scroll down to msa and toggle off the button next to it. A "Revoking authorization" alert will show on screen and the Revoke option appear after 10 seconds. Tap on Revoke to disable MSA apps. The number of ads will significantly decrease after revoking MSA authorization. Disable Ads in the GetApps Store GetApps is Xiaomi's app store with many useful apps for Android devices. To stop seeing ads in games and apps from this app store: Go to Settings > Passwords & security > Authorization & revocation. Scroll down until you see GetApps and toggle off the button next to it. Wait for 10 seconds for the Revoke button to turn on in the "Revoke authorization" screen. Tap Revoke to disable ads. Disable Personalized Ads via Ad Services Xiaomi phones also deliver targeted ads in the form of personalized recommendations. This is how you can easily remove them by disabling Ad Services: Go to Settings and tap Passwords & security. Tap Privacy. Scroll down to Ad services and select it. Disable Personalized ad recommendations. Disable Ads in Pre-Installed Apps It's not enough just to disable ads in MSA and Ad Services. You also need to stop ads from specific apps that come pre-installed on your Xiaomi phone. Disable Ads From the Music App The Music app has a variety of features but also shows a lot of ads when you launch it, as well as personalized recommendations. To enjoy the Music app without any interruption, follow the steps below to turn off ads: Tap the Menu icon on the top left corner of the Music app home screen. Tap Settings > Advanced Settings. On the page that opens, under ADDITIONAL SETTINGS, toggle off the buttons next to Show ads and Show online recommendations on startup. Also, toggle off Personalized recommendations. Follow these simple steps to disable ads in the Security app: Go to Security and select Settings. Scroll down to Receive recommendations and toggle off the button next to it. Then scroll up and tap Cleaner. In Cleaner settings, toggle off Receive recommendations. Disable Ads From the Themes App The Themes app has many cool wallpapers and themes, but also recommendations that it shows from time to time. To disable ads from the Themes app: Open Themes and go to Profile > Settings. Turn off Show ads. Turn off Personalized recommendations. Disable Ads From MI File Manager The essential File Manager app also shows up ads which can be annoying. Follow the steps below to turn off these ads: Open MI File Manager. Tap on the three lines menu icon on the top left of the screen. Go to Settings > About. Turn off Recommendations. Disable Ads From the Downloads App The Downloads app also displays recommended content from time to time. Here's how you can disable that: Open the Downloads app. Tap the three dots menu and select Settings. Toggle off Show recommended content. You'll get a prompt to confirm if you want to turn off recommended sources. Just tap on OK. Disable Unwanted Notifications From Apps If you're bothered by unwanted notifications from an installed app, you can easily turn them off too. Go to Settings. Scroll down to Notifications & Control center and tap on it. Select App notifications and the Notifications screen will open up. Now just toggle off notifications from whichever app you want to. Enjoy an Ad-Free Experience on Your Xiaomi Phone You use your Xiaomi phone and depend on it every day for so many things. So nothing must come in the way of you enjoying a smooth and seamless experience on your device. And now you know how easy it is to disable those annoying ads from MIUI. So go ahead and enjoy an ad-free experience on your phone. Don't worry; we are here to help you remove these pesky ads from your Xiaomi devices. Why is Xiaomi putting ads on MIUI?Kris Carlon / Android AuthorityMuch like Google and Amazon, Xiaomi doesn't consider itself a hardware manufacturer, but an internet company that happens to make hardware. The company has promised to forever cap hardware profit margins at 5%. This means (similar to the other tech giants) Xiaomi needs to make money in different ways. One of them is offering add-ons, extra services, and gaining revenue through ads.You may or may not believe in Xiaomi's structure, but the company's low prices are very welcomed. Amazon has been taking a similar approach with its business model, but it also offers versions of its products with no ads for a higher price. Meanwhile, there is no way to get a Xiaomi phone with no ads, even if you want to pay more for it. Thankfully there are some things you can do to minimize the presence of ads (if not 100% eliminate them). Also read: Why Xiaomi phones have ads, or the tricky business of balancing ads and usability MSA stands for "MIUI System Ads," and it should come as no surprise that killing this app will solve many of your issues. Open the Settings app. Go to Additional Settings. Select Authorization & revocation. Find MSA and toggle it off. Remove ads in Xiaomi GetApps StoreCalvin Wankhede / Android Authority Go into the Settings app. Select Passwords & security. Hit Authorization & revocation. Find GetApps and toggle it off. Related: Xiaomi Buyer's guide Disabling personal ad recommendations will ensure Xiaomi is not tapping into your usage habits and data. It will not, however, disable ads. Open the Settings app. Go to Additional Settings. Select Privacy. Hit Ad services. Toggle off Personalized ad recommendations. Open the MI Security app. Find the cog icon on the top-right corner and tap on it. Toggle off Receive recommendations. Go back to the app's settings. Select Cleaner. Toggle off Receive recommendations. Also: Things we want to see from Xiaomi in 2022 Disable ads in Mi Browser Open the Mi Browser app. Tap on the hamburger menu button in the bottom-right corner. Select Settings. Hit Privacy & security. Toggle off Personalized services. Disable ads in Mi Video Open the Mi Video app. Open the Account menu. Select Settings. Toggle off Online Recommendations. Toggle off Push notifications. Open the Mi File Manager app. Tap on the hamburger menu button in the top-left corner. Select Settings. Select About. Toggle off Recommendations. Also read: Xiaomi Mi Band buyer's guideDisable ads in Downloads Open the Downloads app. Tap on the hamburger menu button in the top-left corner. Select Settings. Toggle off Show recommended content. Disable ads in folders Tap on the folder you want to disable ads for. Tap on the folder name, as if you were going to change the name. A Promoted apps section will show up. Toggle it off. Disable ads in MIUI Themes Open the MIUI Themes app. Open the My page menu. Select Settings. Toggle off Recommendations. FAQs Does MIUI 13 have ads too?MIUI has long been criticized for its unreasonable amount of ads. MIUI 13, the latest version based on Android 12, still has ads. That said, the company has decided to cut back on ads, and the new experience should be much cleaner. Does Xiaomi offer phones without MIUI?While rare, some Xiaomi devices come without MIUI. Android One devices, including the Xiaomi Mi A1, A2, and A3, are the most notable ones. Additionally, the side brand Black Shark has phones with no MIUI skins. Can I uninstall Xiaomi apps?Most of the apps with ads are those Xiaomi has built into its software. We can understand why you might want to get rid of them. The sad news is you can't really uninstall Xiaomi apps, but you can disable them. Xiaomi shows ads in the MIUI interface of its smartphones. Whether it's on its flagships like the Xiaomi 12 Pro or mid-range smartphones like the Redmi Note 11, MIUI 12 contains ads, the famous MSAs or MIUI System Ads. That's just the way it is and will be the case for MIUI 13 as well. However, there are several fairly simple tricks to disable MIUI ads on your Xiaomi smartphone. Follow the guide! All the tips presented in this guide to remove MIUI ads were performed on a Xiaomi 12X running MIUI 13. But these techniques also work on MIUI 12 and even earlier versions of Xiaomi's mobile OS.Jump to:How to delete ads by turning off the MSA applicationThis should be your priority as this method can solve many annoying advertising problems that are present on MIUI. Xiaomi doesn't want you to turn it off and has tried to make the process a bit frustrating, but with patience you can kill the MSA (MIUI System Ads) application.You'll need to make sure your smartphone is running MIUI and is connected to a Wi-Fi or mobile network before doing so. Unfortunately, you are unable to do this offline. Go to Settings, then Passwords & Security. Under Authorization & Revocation, you can search for MSA and slide the switch button to disable it. Now, wait for 10 seconds, then select Revoke. You may receive a message saying that it cannot revoke the authorization. Keep on trying until the system allows you to. After revoking the authorization of the MSA app, you need to restart your Xiaomi smartphone / © NextPit This manipulation should eliminate most of the ads. But these are only the "system" ads in the MIUI interface, other ads may remain in some of the native Xiaomi applications and will have to be disabled individually. Isn't that great?How to disable personal ad recommendationsNow that you have revoked MSA's authorization, you can start disabling the individual recommendations that MIUI will send to you. To disable personal advertising recommendations, which prevents Xiaomi from recording your usage habits, and collecting your data, follow the steps below. Go to Settings, then Privacy Protection. Under Privacy, search for Ad Services and then Personalised Ad Recommendations. Deactivate the Personalised Ad Recommendations and you should no longer see ads based on your behavioral data or personal information. Personalize this Xiaomi! / © NextPit How to disable ads in Security and the web browserDisabling ads in Mi Browser and Mi Security applications is relatively simple from here onwards. Go to your Settings menu and follow the steps below.Disable the MIUI Mi Browser ads: Open the Mi Browser, go to the Profile tab on the bottom right-hand side. In the Profile tab, access the Settings by selecting the "bolt" in the upper right corner. In the Advanced settings, uncheck the Add ads option. Here's how to disable ads in the Xiaomi Web Browser / © NextPit Disable ads in the MIUI Security app: Launch the Security application and go to Settings. Under Settings, disable the Receive recommendations option. Here's how to disable MIUI ads in the Xiaomi Security app / © NextPit How to disable ads in Music and Mi VideoTo disable ads in your Xiaomi Music and Mi Video applications, the process is largely the same as above, with only a few adjustments required for Mi Video. Launch the Mi Music application and go to Settings in the top right corner. Then go to Advanced Settings and disable the Receive recommendations and Show Ads options. Here's how to disable MIUI ads in Xiaomi's Mi Music app / © NextPit In MIUI 13, however, it is no longer possible to disable recommendations since in order to do so, you have to waive the acceptance of the app's TOS. By doing so, Mi Video will be unusable.How to disable ads in File Manager, folders and Mi downloadsTo disable MIUI ads in the file manager and downloads folder, you need to follow a rather similar but also counter-intuitive procedure, since Xiaomi would like you not to do so.To disable ads in the Files application: Open the Files app and then go to Settings. Press About. Turn off recommendations (don't touch consent, since you'll be taking away Files' access to your... files). The option to disable recommendations is a bit too well hidden for my taste; / © NextPit How to disable ads in the Downloads folder: Open the Downloads folder. Press the kebab menu (three vertical dots) on the top right. Select Settings. Disable the option Show me recommended content. It's crazy that Xiaomi hides ads here / © NextPit How to disable ads in MIUI themesThe easiest way to get rid of ads in the MIUI Themes application is to go directly into the application itself and disable it. Follow the steps below. Open the MIUI Themes application and go to Account. Search for Settings, then disable Recommendations. To get rid of MIUI ads in Xiaomi's Themes app, simply disable the "Recommendations" option / © NextPit Let's be honest, it's a tedious affair that really ruins the user experience. But once it's done, you'll be free of advertising on MIUI 13 and later versions, and you can enjoy your Xiaomi smartphone without being bombarded by ads.Did you find these tips useful? Let us know if you've found an easier way to disable ads in MIUI in the comments below.
